## **Welcome to The Kushader Co.**

*Looking for something specific, or just curious?*

Allow us to showcase our extensive catalogue of Cannabis medicines and products, and introduce you to what we do!

Our research into cannabis spans over a decade and our oils are made by a licenced Traditional Healer. Research has shown that whole plant extractions yield better results than isolated Cannabinoid extracts and as such, we produce using whole plant extraction for our oils. We use various hybrid strains in our production –this allows the cannabinoid profile to vary and keep the endocannabinoid system active and firing.
